In reference to the above letter and memo cited, it is further notified (as also mentioned in Memo cited in reference) that charged electrical connections for industrial use should be released as per the following timelines:

- Connections including CEIG approval up to 200KVA to be provided within **seven days where no RoW is required** from the date of application for electrical connection.
- Connections including CEIG approval up to 200KVA to be provided within **fifteen days where RoW is required** from the date of application for electrical connection.

It is further informed that the case of virgin territory will not be considered for the evaluation. (Virgin territory for these reforms means locations where new line needs to be laid beyond 500 meters from the nearest available head)

It is also informed that CEIG approval is mandatory for connections at above 33 KV Potential and the above mentioned timelines are also applicable to the connections even if CEIG approval is not required i.e.

- Connections (without CEIG approval) up to 200KVA to be provided within seven days where no RoW is required from the date of application for electrical connection.
- Connections (without CEIG approval) up to 200KVA to be provided within fifteen days where RoW is required from the date of application for electrical connection.
